aboutheather

based in salt lake city, utah

my love for photography began at utah state university, when I sold my kayak for my first nikon slr. it was at usu where I took my first photography course. I thoroughly fell in the love with roots and process of film photography.

although years later, I switched from film to digital photography, I still own and use that very first slr.

my work has been featured in numerous publications, most recently in utah bride & groom and kinfolk magazines.

birth stories are a very moving part of my photography. i find myself weeping at every birth, even if the parents are not. i am grateful for all those who share this experience with me... completely honored really.

shall we record your history together?

information

all birth stories include a consult to discuss any questions you may have concerning your baby's birth story, procedure & your hospital's policy
I want to ensure your confidence and comfort prior to this major event in your family's life

thank you
